

# M-LAB TRANSFERAGENTUR

Usability for mobile

# our **USABILITY PATTERNS**

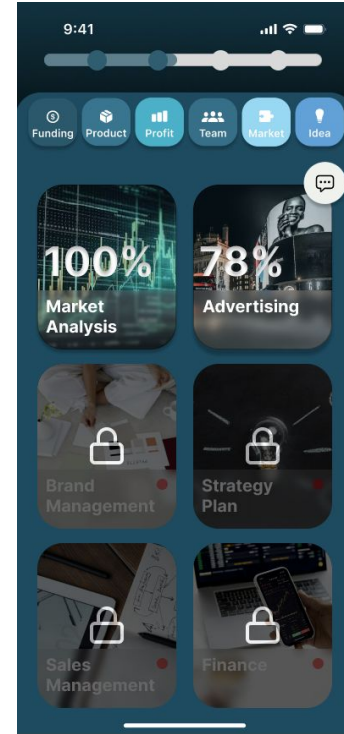

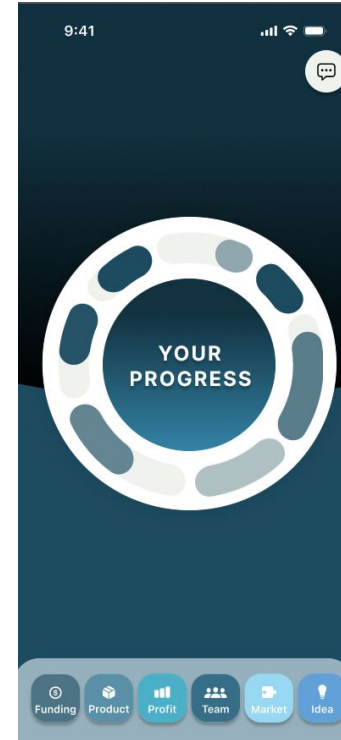

1. Primary Navigation
2. Secondary Navigation
3. Call to Action buttons

# NAVIGATION

- Category bar at the bottom; swipe up opens modules
- Navigation between modules and overview via standardised back arrows

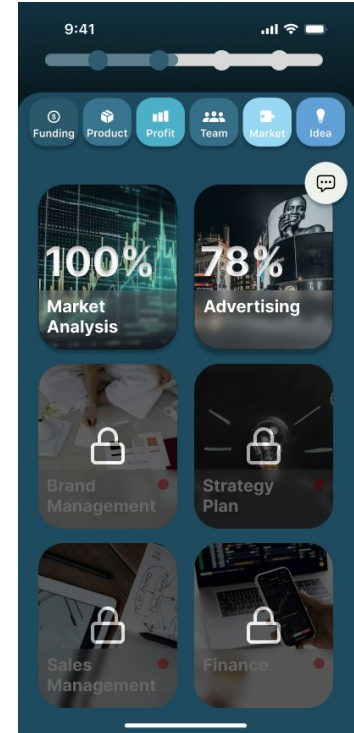

## Progress chart

- Large on the home screen for clear focussing
- Turns into a progress bar when switching screens

# CALL TO ACTIONS

- Large, high-contrast buttons (e.g. chat button)
- Module widgets: Large, intuitively clickable
- Locked modules: Lock symbol + grey background

# avoided **ANTI-PATTERNS**

1. Idiot boxes
2. Others

# IDIOT BOXES

- No unnecessary pop-ups or interruptions
- Only open if the function cannot be undone (e.g. delete)

# OTHERS

- Short introduction after onboarding with focus on rare, non-intuitive functions
- Do not explain known functions unnecessarily

# THE END

Any questions?
